

How to upload and share a YouTube video

Step 1: Record your video

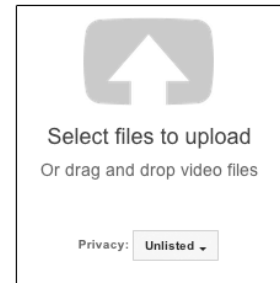

Use one of the How-To guides to help you to record a video.
Save your video recording to your desktop, or to a dedicated folder for all of your course recordings (recommended)

Step 2: Log in to your YouTube account and upload your video

Click on the Upload button

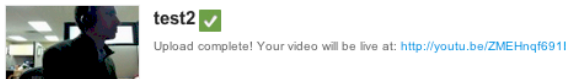

Click on the upload icon to browse to your video file.
Select the Privacy setting to "Unlisted".

Step 3: Get the embed code from your video

Wait until your video is done uploading and processing.
Click on the thumbnail image to display the video.

When the video loads, look below it for the share link. **COPY IT**

Step 4: Go to your course and paste the URL

Got to your Forum or Assignment and paste the URL.
Select the same URL you just pasted and click on the link button.
Paste the URL into the Link URL box then click Create Link.
Submit your post or assignment.
